Short version

The *Trend 90*: ready-to-go anniversary model for a fantastic price

In 2021, a milestone year for Dethleffs, the company has released another attractive special-edition model: *the Trend 90*. For years, the motorhomes in the Trend series have been some of the most successful Dethleffs models. With numerous layouts, they offer a wide range of options and excellent value for money. Dethleffs has produced an extremely attractive package of features for the *Trend 90* anniversary model with a choice of eight layouts in the Low Profile class, including a high-performance drive as well as numerous practical and high-quality extras. These include a multifunctional leather steering wheel and automatic air-conditioning in the driver's cab, a habitation door with a window and central locking, black-out blinds in the driver's cab and so much more. The Citroën Jumper with a low-platform chassis is used as the basic vehicle. Its 165 HP drive masters every incline and plays a key role in the vehicle's dynamic driving characteristics. Inside and out, the *Trend 90* is kitted out in the sporty style that has come to be expected of the entire Trend series. The Metropolitan upholstery has been designed for the anniversary series. Its trendy fabrics in light grey blend in harmoniously with the interior design, which features a modern mix of wood and white surface finishes. Just like all Trend models, the *Trend 90* anniversary model is based on the rot-proof Lifetime Smart body construction, which is unexpected in this class.

About Dethleffs

“Not without my family!” This decision taken by Arist Dethleffs in 1931 inspired him to design Germany’s first ever caravan, which he called the “Wohnauto” (original camper) – all because the ski pole and horsewhip manufacturer wanted to have his family by his side when he went on long business trips. Very few people were familiar with the word “leisure” back then; family holidays were a privilege and tourism was still in its infancy. The invention of the Dethleffs caravan marked the beginning of a new era – especially for the company, which eventually devoted itself entirely to the production of caravans, followed by motorhomes.

The pioneering spirit of Arist Dethleffs can still be felt throughout the company to this day. It can be found in the ongoing development of model ranges, in the countless innovations and, needless to say, at the heart of the Dethleffs camping story – the family. The company has had close ties with Isny im Allgäu since the very beginning and, with its position as a “friend of the family”, has its sights firmly set on the core values of the brand.

In addition to motorhomes and caravans from the Dethleffs brand, camper vans and urban vehicles for the Pössl and Crosscamp brands are also developed and produced in Isny.

Erwin Hymer Group

The Erwin Hymer Group is a 100 percent subsidiary of Thor Industries, the world’s leading manufacturer of recreational vehicles with more than 25,000 employees worldwide.
